

**PROFILE OF T. DR. BEN TUTU & BENADAK HERBAL
MEDICINE RESEARCH CENTER AND CLINIC**

T. Dr. Ben Tutu is the CEO of Benadak herbal medicine Research center and clinic. He hailed from a home of traditional herbalism from both sides; He is in his 21st year of practice. His outstanding professional and academic excellence led to the birth of a book entitled Regenerative Health and Nutrition in Plant Medicinal Therapies.

His resourcefulness in areas such as Research methodology, Phytochemistry, Medical laboratory science, Toxicology, etc led to the establishment of the Benadak Herbal Clinic.

His research drive is rooted in bringing to bear the relationship that exists between ancient practice and

scientific analysis. T. Dr. Ben Tutu spent 13years of research to come out with an immune booster named **BENADAK HERBAL MIXTURE**.

The registered booster is available at the Ho Teaching hospital and the Ho Municipal hospital purposed at providing support for healthcare services at the hospitals. The Benadak Herbal clinic is focused on augmenting government efforts to standardize traditional medicine in mainstream health care system.

WHAT IS SPECIAL ABOUT BENADAK HERBAL CLINIC.

The clinic is an all-round facility whose services cut across all segments of specialization. The development and application of therapies and medications to take care of complex conditions is admirable. This is purposed at meeting the increasing demand for specialized health care.
